Please note the following 4 points before filling in the sheet:

1. We have kept DTU MCE over ECE and mechanical of other colleges because of more job opportunities. Needless to add, one should have interest in mathematics and computers for this branch.
2. If you have serious interest in research-based study, please prefer IIIT D or you can also prefer IIIT D CSAM over DTU/NSIT IT and Software.
3. If you want to study in DTU and NSIT and do not have much interest in CS, then you can bring down IGDTU CS and IT from order 15 and 16 to below 20th.
4. Moreover, choices may vary from person to person and their interests. This list is based on general trends and focuses on trends placement and reputation over interests.
